## Background

The National Quality Award (NQA) gives tangible recognition to those life insurance professionals who strive for quality business excellence in life insurance sales and service.

Advocis was instrumental in the establishment of this award in Canada in 1946 and has proudly supported it every since. Today, the NQA continues to focus attention on retention, permanence, stability and quality performance.

Qualifying for the annual National Quality Award provides recognition to life insurance advisors who provide high quality service to Canadian consumers.

## Eligible Policies

- All life insurance, living benefits and annuity policies that by their terms can lapse within the 25-month retention exposure period.
- A 'policy credit' can be given for any policy increase that generates new first-year commissions. Conversely should there be a corresponding decrease during the 25-month exposure period it must be counted as a lapse.

## Requirements

- Be working full-time as a life-licensed financial advisor
- Write a minimum of 35 paid policies during the 2020 calendar year. Applicants who have qualified for more than 15 years require a minimum of 15 policies. See the eligible policy section for clarification on eligible business.
- Maintain at least 85 percent retention based on a 25-month exposure period. This means that at least 85 percent of the policies must have some portion of the third years' premium paid.
- Be a member in good standing of Advocis. This means that your fees must be up to date and there are no sanctions currently pending against you.
- Complete Parts I and II of an NQA application for every company you wrote eligible business with during 2020 and send each application to the respective company for completion of Part III.

## Policies/Transaction Not Eligible

- Policy changes
- Term policy renewals
- Term policies converted within the exposure period
- Any policy that by its terms cannot lapse or be surrendered during the 25-month retention exposure period ie. single premium annuities
- Automated policy increases that do not generate first and second-year commissions
- Revivals and reinstatements of lapsed policies issued in previous years
- Single premium immediate annuities
